Ashton Hayes Primary School Pupil Premium Statement

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

School overview

Detail	Data
School name	Ashton Hayes Primary School
Number of pupils in school	140
Proportion (%) of pupil premium eligible pupils	4.3%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2021/2022 to 2024/2025
Date this statement was published	December 2022
Date on which it will be reviewed	July 2023
Statement authorised by	Jon Gilbert
Pupil premium lead	Jon Gilbert
Governor / Trustee lead	TBC

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£8310
Recovery premium funding allocation this academic year	£2000
Pupil premium funding carried forward from previous years	£0
Total budget for this academic year	£10,310

Part A: Pupil premium strategy plan

Statement of intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

The proportion of children who are disadvantaged at Ashton Hayes Primary School is very low, as in turn is the level of funding.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our strategy is also integral to wider school plans for education recovery, notably in its targeted support through the National Tutoring Programme for pupils whose education has been worst affected, including non-disadvantaged pupils.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
Hullibel	

1	Assessments, observations, and discussions with pupils suggest disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.
2	Assessments show that the impact of school closures had a more significant impact on writing standards for disadvantaged pupils. This gap is still evident across the school.
3	Standards in Mathematics for a number of our disadvantaged pupils is not in line with that of non-disadvantaged children.
4	Self-esteem and self-confidence have been affected for many disadvantaged children.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Children are more confident and have greater self-belief.	Children are positive about their education and their home- life
Children will be able to recognise their achievement and strengths	Children need less support in class time to resolve friendship issues
Improved reading attainment among disadvantaged pupils.	Both in school and standardised data shows that disadvantaged pupils make at least expected progress and the majority reach the expected standard in Reading and the Phonics Screening Check.
Improved maths attainment for disadvantaged pupils at the end of KS2.	Both in school and standardised data shows that disadvantaged pupils make at least expected progress and the majority reach the expected standard in Mathematics.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £8000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Purchase of Mathematics resources to support teachers in the delivery of high quality Mastery Mathematics Curriculum	The DfE non-statutory guidance has been produced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches: Maths guidance KS 1 and 2.pdf (publishing.service.gov.uk)	3
	The EEF guidance is based on a range of the best available evidence: Improving Mathematics in Key Stages 2 and 3	
Purchase of a DfE validated Systematic Synthetic Phonics programme to secure stronger phonics teaching for all pupils.	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF	1
Purchase of reading scheme materials to support the teaching of phonics	Books need to be matched to the phonic ability of the children. There needs to be sufficient copies of books to support all learners. Phonics Toolkit Strand Education Endowment Foundation EEF	1

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £2310

Activity	Evidence that supports this approach	Challenge number(s) addressed
Engaging with school-led tutoring for pupils whose education has been most impacted by the pandemic. A significant proportion of the pupils who receive tutoring will be disadvantaged, including those who are high attainers.	Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one: One to one tuition EEF (educationendow-mentfoundation.org.uk) And in small groups: Small group tuition Toolkit Strand Education Endowment Foundation EEF	1,2,3,4
Beanstalk Reading Programme	97% of schools would recommend Bean- stalk to others 98% agreed that Beanstalk trained reading helpers helped the children they support to improve their attitude to reading. 98% agreed that Beanstalk trained reading helpers helped the children they support to increase in confidence 94% agreed that Beanstalk reading helpers enriched the learning of the children they support. 94% agreed that Beanstalk's service was good value for money. 97% agreed that because Beanstalk car- ries out all the recruitment, DBS-checking, training and support of its volunteers their staff's valuable time was saved.	1,4
Emotional Literacy Support (ELSA)	ELSA provision – ensure consistent support for emotional well-being from trained ELSA – ensure adequate supervision for ELSA. Recognising emotions Self-esteem Social skills Friendship skills Anger management Loss and bereavement	4

Total budgeted cost: £10,310

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

Our internal assessments during 2021/22 suggested that the performance of disadvantaged pupils was marginally lower than in previous years in key areas of the curriculum. However due to the low numbers of PP children in our school it is not appropriate to generalise. A proportion of these children have achieved at least in line with their peers.

The investment in resources and training for teachers to support Phonics and Mathematics has shown an improved consistent approach across the school. This cost remains ongoing as resources and subscriptions need to be repeated annually.

Our assessments and observations indicated that pupil wellbeing and mental health were impacted last year, primarily due to COVID-19-related issues. We used pupil premium funding to provide wellbeing support for all pupils, and targeted interventions where required through the funding and supervision of our ELSA. We continue to see the value in these sessions and are using funding to support this in the current academic year.
