

Task One:

Invent your own creature

I stumbled across the most brilliant website last week.

www.thestoryelves.com

And now I can't stop exploring it! Here is a task from there that I want you to have a go at today... I might have to create one myself I'm so excited about it...

1. Write down a list of creatures. They can be your favourite creatures, or just ones you find particularly funny or fascinating.
2. Next to each, write down their most interesting body parts and features. (What is interesting to you.)
3. Once you have a list, choose four of the creatures to work with.

The writing part of the assignment might end up looking like this.

Lion: Big mane, long tail with fluffy end, big paws

Gold fish: Flowy fish fins, bright colour, scales

Lizard: Feet with nails, scales, a very long tail

Owl: Big eyes, short beak, wings, round body

Now look at the features and pick the ones you like the most from each creature. If you feel uncertain of what the features look like, you can find pictures and use them for reference for your drawing.

Then, you are ready to combine the different features into a brand new creature!

You might also want to think of a name for this creature.

Once your creature is complete and named, move on to the writing task.

Have fun!

Miss Fray
